Security Updates

- Android Security Patch Level: August 2025
Refer the following URL for more information of Android Security bulletin:
<https://source.android.com/docs/security/bulletin/2025-08-01>

Resolved Issues

- Resolved an issue where the volume pop-up screen does not disappear when using the volume buttons, and the power button becomes unresponsive.
- Resolved an issue that IP settings of Ethernet are rarely not applied when those are changed.
- Resolved an issue where proxy settings become invalid after changing the status of the network interface, i.e. Ethernet, Wi-Fi, cellular, etc.
- Resolved an issue where quick panel configuration is initialized every time after power on.
- Resolved an issue that the system rarely reboots due to screen rotation just after the home screen is displayed.
- Resolved an issue that the device's time cannot be synchronized with an NTP server on the local network.
- Resolved an issue where the PanasonicEnterpriseLauncher wallpaper disappears after switching power off and on.
- Resolved an issue where key operation and ringtone volumes decreased after a SIP call.
